## We Tried 8 Maple Syrups - These Are the Best

### **BEST OVERALL: RUNAMOK, SUGARMAKER'S CUT PURE MAPLE SYRUP**

For the maple syrup purists who want the real deep woody essence of maple, we picked Vermont's Runamok Sugarmaker's Cut. This brand had the most favorable comments about its maple flavor. One of our testers observed, "A lovely all purpose breakfast syrup. Sweet and well-rounded, seems versatile," while another one said, "Great taste, it feels authentically maple!"

It's no wonder that this syrup had the best overall flavor, as Runamok is certified organic by the Northeastern Organic Farmers Association and considered Bird Friendly Maple by the National Audubon Society.
